SUMMARY

Computer Science undergraduate specializing in AI/ML and full-stack development. Built and deployed scalable web applications using modern technologies, with hands-on experience in CI/CD workflows, cloud platforms, and software engineering best practices.

EXPERIENCE

Founder | Research & Development Engineer

MayaMatrix

January 2025 - Present, Ahmedabad, Gujarat, India

- Founded MayaMatrix, an independent software R&D initiative focused on automation, full-stack systems, and AI applications.
- Lead a 5-member team across product strategy, system architecture, development, and deployment.
- Managed development of a cross-platform alumni networking platform using React Native, Node.js, SQL, Redis, and Socket.IO.
- Engineered an AI-assisted OCR pipeline in Python for text extraction and structured data generation, validated on 459-page PDF benchmarks.

Generative AI Intern

Google Cloud

April 2025 - June 2025, Virtual

- Completed a 10-week Generative AI Virtual Internship program organized by Google Cloud, EduSkills, and AICTE.
- Performed 5+ hands-on virtual labs and practical assignments focused on AI/ML workflows, and Generative AI concepts.
- Explored Google Cloud technologies and cloud-based development practices through structured technical training modules.
- Applied foundational machine learning and Generative AI concepts in guided project activities and technical assessments.

PROJECT

Attendance Management System

MayaMatrix • attendance-management-system-mayamatrix.vercel.app/ • August 2025 - November 2025

- Built a full-stack Attendance Management System for Rai University, streamlining attendance tracking, authentication, and dashboard management.
- Implemented JWT-based authentication and role-based access control supporting 2 distinct user workflows for students and faculty members.
- Designed responsive attendance dashboards and backend workflows supporting efficient management of 100+ attendance-related data entries.
- Structured REST API workflows and database operations for secure storage, retrieval, and processing across multiple attendance management functions.

SKILLS

Programming Languages: Python, C, C++

Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, RESTful APIs, JWT Authentication, OAuth, bcrypt

Data Analytics: SQL, Numpy, Pandas, Matplotlib, Seaborn

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Kiro IDE, Claude Code

Core Computer Science: AI / ML, MERN Stack, OOP, DBMS, OS

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Fast Learning, Adaptability

EDUCATION

Bachelor of Technology (Computer Science and Engineering)

Rai University • Ahmedabad, Gujarat, India • January 2028 • 8.63 GPA

- Relevant Coursework: DSA, DBMS, OOP, Operating Systems, Computer Organization & Architecture (COA), DevOps & Cloud Computing, and Full-Stack Web Development (React, Node.js, Next.js). Currently pursuing AI Essentials, Computer Networks, Design and Analysis of Algorithms (DAA), and Python with Django.

Higher Secondary Education (Class XII) in Science

Alpha High School • Junagadh, Gujarat, India • January 2024 • 5.62 GPA

Secondary Education (Class X)

Shree Swaminarayan Gurukul • Junagadh, Gujarat, India • January 2021 • 7.04 GPA

CERTIFICATIONS

Data Analytics Using Python and SQL

ADS Foundation Centre of Excellence • January 2026

- Completed a 120-hour Skill Based Internship Training (SBIT) focused on Data Analytics using Python and SQL.

Data Science Basics

Cisco Networking Academy • January 2024

- This certification provided foundational knowledge in data analytics, data processing, and core data science concepts.

JavaScript Essentials 1

Cisco Networking Academy • January 2024

- Provided Core JavaScript Fundamentals & Understandings of Concepts in more-depth.
